Payment Gateway
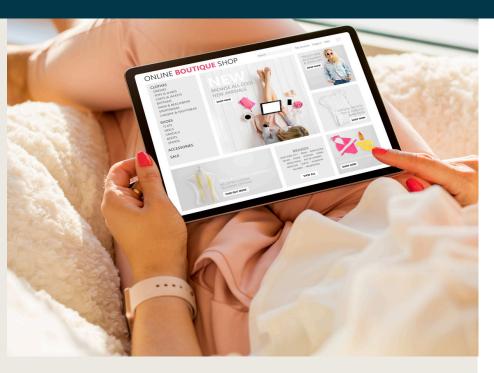

The future of seamless, secure, and cost-effective payment processing for businesses of all sizes.

Pepper Pay

Why Us?

- **Potential Reduction in Fees** - Save by processing debit payments over a debit network instead of a credit network.
- **State-of-the-Art Security** - Ensure your customers' data is protected with encryption and fraud protection.
- **Effortless Integration** - Our open API makes connecting to eCommerce platforms, CRMs, and other software a breeze.
- **User-Friendly Implementation** - Set up quickly and easily

Open API for eCommerce

Seamlessly integrate with popular platforms and applications to manage online transactions, track sales, and optimize business processes.

Virtual Terminal for Card-Not-Present (CNP) Transactions

- Simplify invoicing and recurring billing for merchants handling CNP transactions
- Access a detailed dashboard for quick reconciliation
- Enjoy peace of mind with robust data security
